6mR MASTER CLASS 2014

Following the success of first organized Master Class in 2013, a new training program has been tailored for mR yachts.

Master Class training sessions are specifically aimed at improving crew work, sail trim and providing a healthy environment for all types of sailors to learn. After one of the tightest years of racing in two of the largest keelboat classes in Finland, Master Class has shown what a solid training program with structured drills can do for all teams.
